How to transfer ICX from Ledger Nano S

1. Access to ICONex

How to transfer ICX from Ledger Nano S

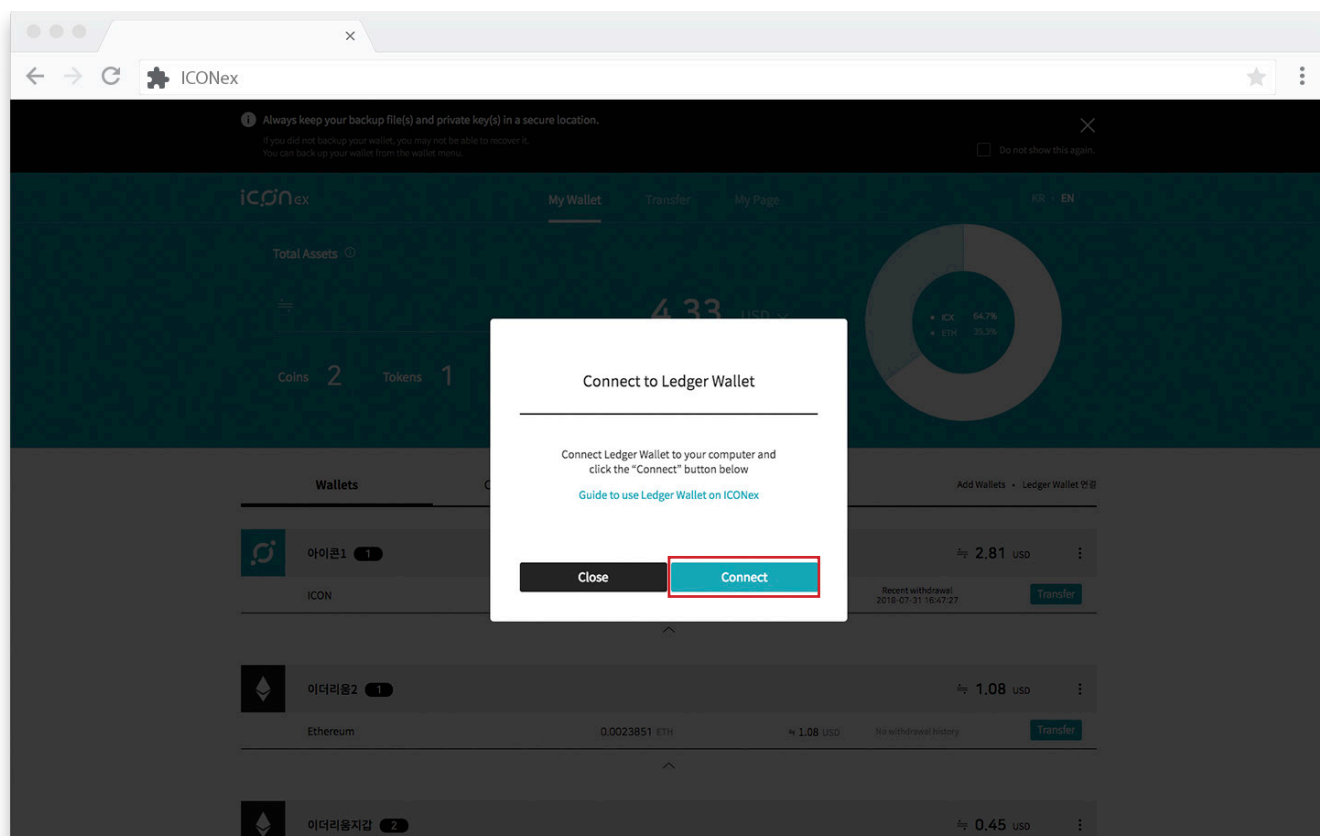

2. Connect Ledger Nano S to your computer, then open “**ICON App**” on your Ledger Nano S

How to transfer ICX from Ledger Nano S

The screenshot shows the iCONex web interface in a browser. At the top, there is a warning banner: "Always keep your backup file(s) and private key(s) in a secure location. If you did not backup your wallet, you may not be able to recover it. You can back up your wallet from the wallet menu." Below this is a teal navigation bar with the iCONex logo and links for "My Wallet", "Transfer", and "My Page". The "Transfer" page is active, showing a form with three main sections: "Wallet Name" with a dropdown menu and a "Connect to Ledger" button (highlighted with a red rectangle), "Transfer Amount" with an input field and a "MAX" button, and "Receiving Address" with an input field and "My Address" and "Recent Address" buttons. A grey confirmation bar at the bottom of the form states: "Please check the amount and the address. You CANNOT cancel the transaction after you confirm." A large teal "Transfer" button is at the bottom of the form. The footer contains copyright information: "©2018 ICON Foundation • iCONex disclaimer" and the version "Ver.1.0.2.8".

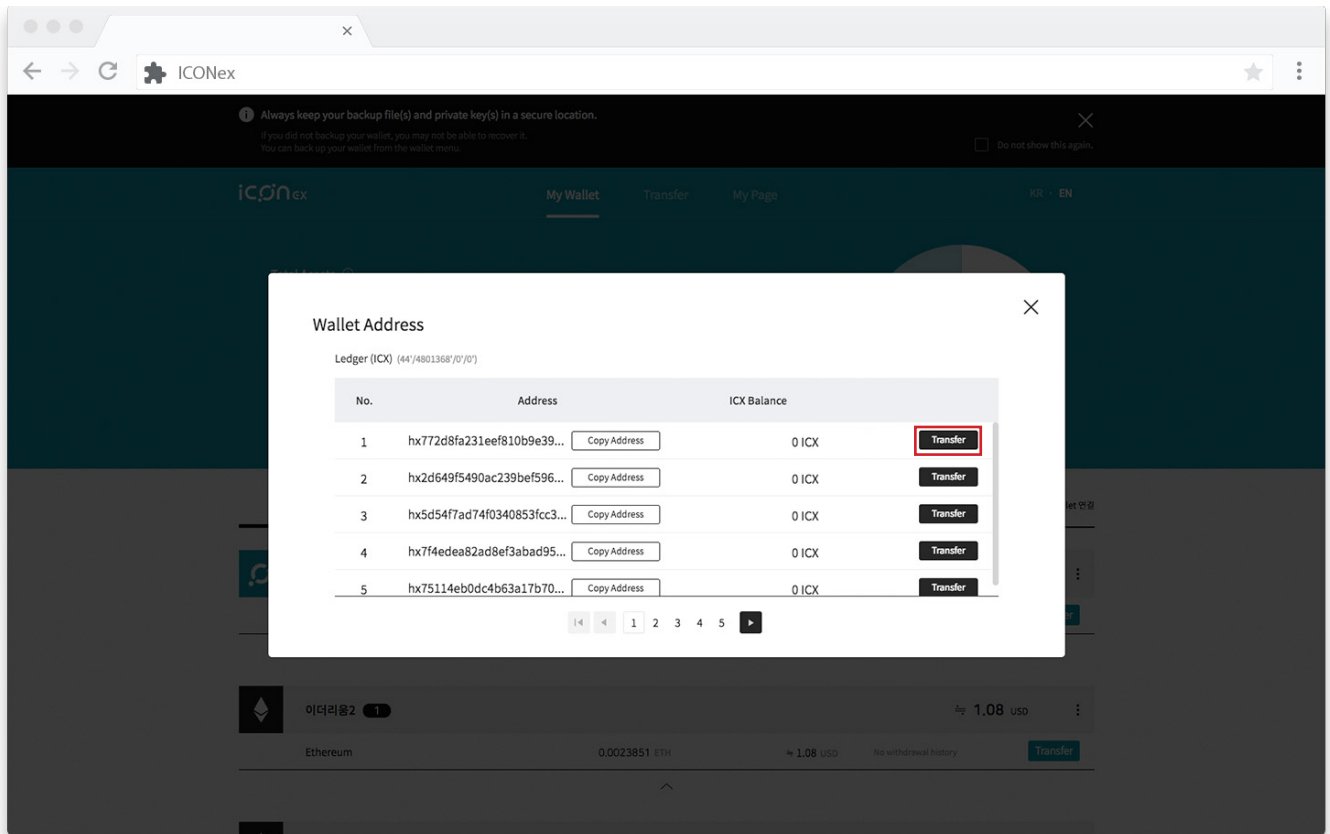

3. Click the “**Connect to Ledger**” button on either main page or transfer page of iCONex

5. **Select** one of your Ledger Nano S wallets on the Wallet Address pop-up from which you want to transfer ICX

How to transfer ICX from Ledger Nano S

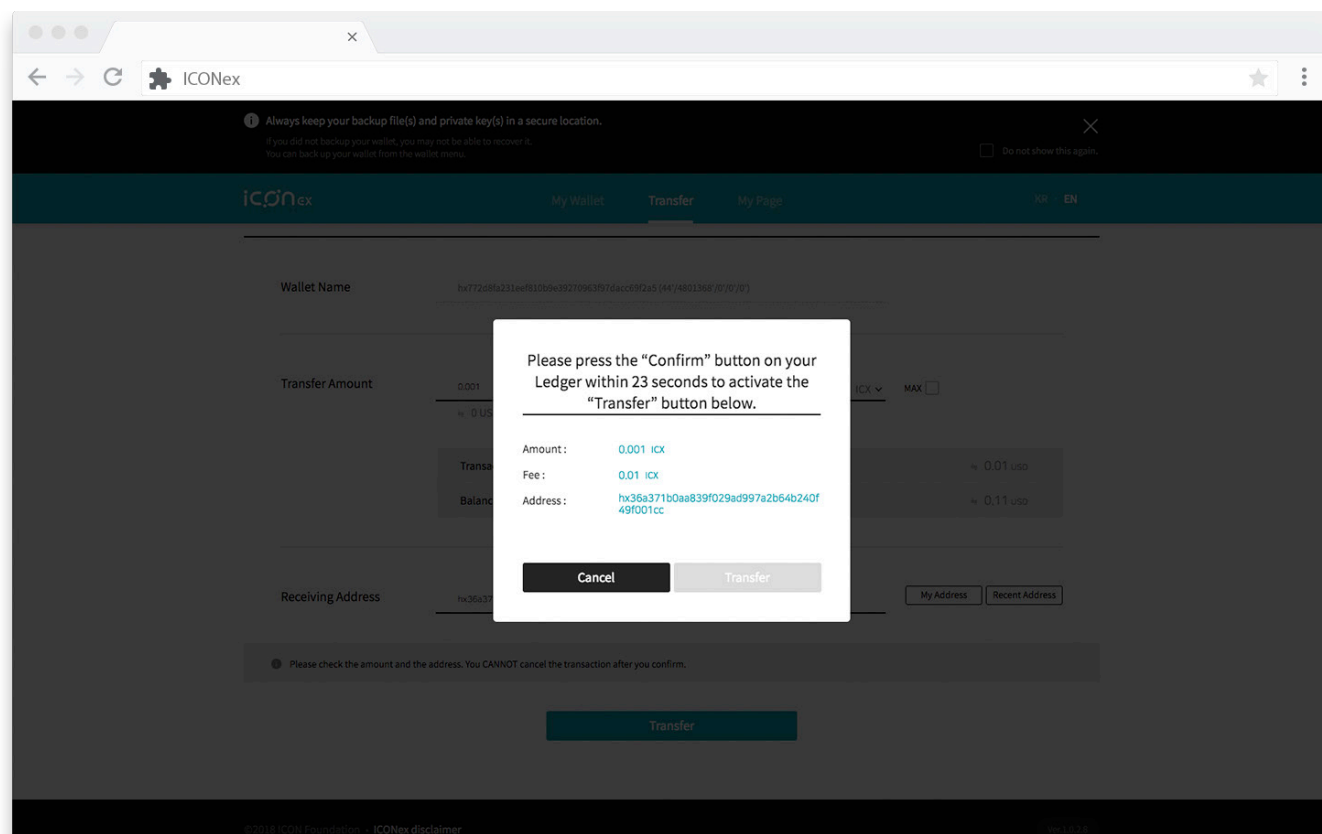

The screenshot shows the iCONex web interface for transferring ICX. At the top, there is a warning banner: "Always keep your backup file(s) and private key(s) in a secure location. If you did not backup your wallet, you may not be able to recover it. You can back up your wallet from the wallet menu." Below this is a teal header with the iCONex logo and navigation links: "My Wallet", "Transfer" (active), and "My Page". Language options "KR · EN" are on the right. The main section is titled "Transfer". It contains a "Wallet Name" field with a long hexadecimal string. Below is a "Transfer Amount" section with a text input "Enter transfer amount.", a unit selector "ICX" (with a dropdown arrow), and a "MAX" button. The input shows "0 USD". A summary table is displayed below the input:

| | | |
|---------------------------|----------|------------|
| Transaction Fee | 0.01 ICX | ≈ 0.01 USD |
| Balance after transaction | 0.09 ICX | ≈ 0.11 USD |

Below the table is a "Receiving Address" section with a text input "Enter address" and two buttons: "My Address" and "Recent Address". A light gray box contains a warning: "Please check the amount and the address. You CANNOT cancel the transaction after you confirm." At the bottom center is a teal "Transfer" button.

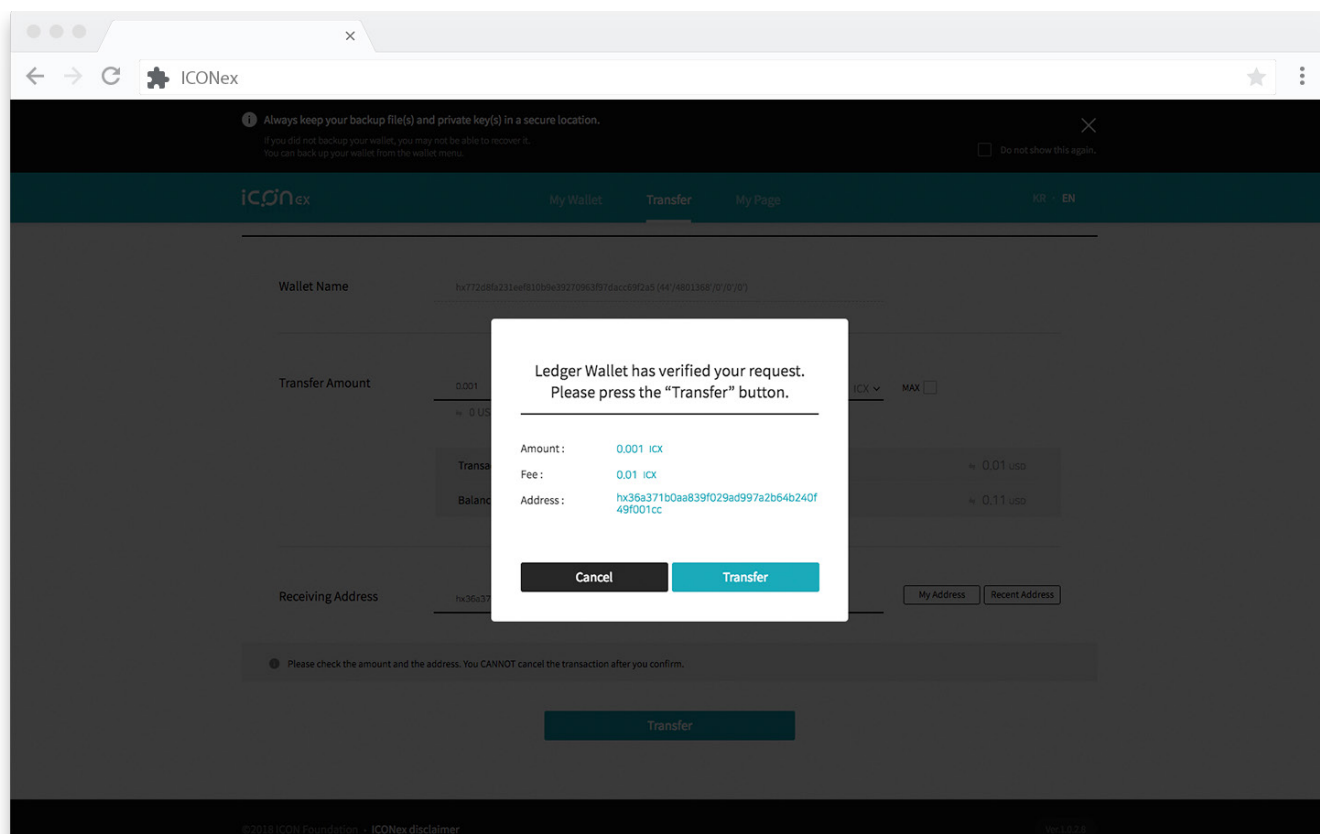

6. Click the “**Transfer**” button below after you enter transfer information

How to transfer ICX to Ledger Nano S

The screenshot shows the ICONex web interface for transferring ICX. At the top, there is a warning banner: "Always keep your backup file(s) and private key(s) in a secure location. If you did not backup your wallet, you may not be able to recover it. You can back up your wallet from the wallet menu." Below this is a navigation bar with "My Wallet", "Transfer", and "My Page" tabs. The "Transfer" tab is active. The main form includes a "Wallet Name" dropdown set to "아이콘1" and a "Connect to Ledger" button. The "Transfer Amount" section shows a value of "1" ICX, which is equivalent to "0.95 USD". Below this, a table displays the "Transaction Fee" as "0.01 ICX" (0.01 USD) and the "Balance after transaction" as "1.207212344567889877 ICX" (1.15 USD). The "Receiving Address" field contains the hexadecimal address "hx1ed6f3da10aa86e1d9c7584ac42e22a6c2d5a63", with "My Address" and "Recent Address" buttons. A confirmation message states: "Please check the amount and the address. You CANNOT cancel the transaction after you confirm." A large blue "Transfer" button is at the bottom.

7. Paste the address on ICONex transfer page and proceed with **transfer**
